Peace to War - Paul Alexander

\$26

Conference keynote speaker Paul Alexander offers a gripping, powerful, and prophetic book that sounds an alarm for the historic peace churches, urging us to protect and embrace our nonviolent heritage before it's too late. His reflections are drawn from his experience with the Assemblies of God, a denomination that started out committed to pacifism but abandoned this witness during the 20th century. The story offers a valuable lesson to the historic (living!) peace churches if we choose to learn from it.
