

SUNDAY OFFERING – Church of the Brethren CORE MINISTRIES

Support for CORE MINISTRIES provides the means for the Global Mission office to provide support to our Global Communion partners and other international ministries that will further the Kingdom of God.

The **Office of Global Mission** seeks to integrate faith and service, challenge and equip Brethren to respond to human need, and grow the church of Jesus Christ throughout the world. The office works on the development of a global Church of the Brethren consisting of autonomous groups that witness to their broader communities while mutually encouraging one another as branches of the denominational vine. Priorities are to support theological training for pastors, the building of churches, in-person gathering with our global Church of the Brethren communion, and to disciple church leadership with integrity. In the face of natural disasters, violence, and antagonism towards the church, the Church of the Brethren is growing around the world, sharing the gospel, serving the poor, and speaking peace in the face of a violent world.

Call to Worship (One, All)

God has called us together this week as a beloved community of faith.

We have shared our hearts, our struggles, our very selves.

Wherever we are in our faith journey, God meets us right there, calling us out from isolation and fear into sacred community.

We have shared in worship, in discernment, in fellowship.

Christ chose the human experience for the sake of perfect love. Becoming Emmanuel, God with the community.

God is still Emmanuel.

God has been at work in our midst this week, at work in our home congregations, at work in the world.

God is with us here and now.

God will go with us as we depart this space and God has already gone ahead.

As we join with Jesus in our neighborhoods, help us welcome others in a way worthy of God's people.
