

Weaving Together Service and Advocacy

Friday, July 4th, 12:30pm
Pebble Beach Room

How can we turn the issues we are personally passionate about into tangible service and activism?

In this interactive session, staff from the Office of Peacebuilding and Policy and Brethren Volunteer Service will give insight on how to identify needs in your local community and how to advocate around those issues both at the local and national level.

Staff will give examples of faith-based activism, provide helpful resources, and most importantly help you brainstorm ways you can get more involved with the issues you care about!
