Ethics for Congregations

Case Study #4

Scenario

The congregation has begun streaming their worship service. The live stream allows older members who cannot venture out to join the church and a number of former members have reconnected through the stream. While the congregation has copyright permission services to cover the reprinting of the lyrics in slides on the screen, they do not have a streaming license.

Discussion Questions

What appears to be inappropriate in this scenario?

How could the congregation have avoided a conflict in its values?
