

District Newsletter Article

As newly appointed Global Mission Advocate for the (your district) District, (your name) of the (your congregation) congregation, is encouraging congregational mission advocates to share information about denominational mission programs with their congregations. The new network hopes to inform churches of Brethren mission efforts and to encourage participation and financial support of this work.

Denominational staff have committed to sending out a monthly “Minute for Mission” e-newsletter, which includes stories related to current mission work, mission opportunities, and prayer requests. Each issue contains a “Global Prayer Guide” that lists a daily prayer prompt for a mission worker or country of denominational significance. This is a great source of current information that can be shared with the congregation on a Sunday morning during worship or Sunday school, placed on bulletin boards, and added to bulletins or websites.

If you would like to receive the e-newsletter or read past issues go to <http://www.brethren.org/partners/>.

If your congregation has not yet named a congregational mission advocate, please choose one and pass on the person’s contact information to (your name). If your congregation would like someone to come speak to your congregation on some aspect of missions in the Church of the Brethren, please contact (your name and contact information).
