

National Youth Sunday 2026

Light within Us, Matthew 5:14-16

Prayer

by Kayleigh Chapman

Dear God, you've told us about the light we have within us, about how you want us to use that light, and how we shouldn't hide that light. You ask us to use our light to brighten the world, to make someone's day better, to make some of the darkneses in life feel a little less difficult. We thank you for the many ways you have shown us to use our lights in the ways you've asked us. You have told us how to not hide our light, but rather how to use it for good. We now, thanks to you, have the ability to make the world so much brighter. Thank you, God, for showing us that we should not hide our lights, but we should also show them proudly. God, we promise to continue to light the flame within us in every moment you see fit and to continue to shine through you. Amen.
